Pulse Code™ | Dialect™ | Hieroglyph™ | Unsaid™

CARPET TILE

A pronounced elegance

The Transcribe™ collection is inspired by humanity’s enduring instinct to communicate through marks, symbols, and layered forms that carry meaning across time. From ancient etchings to contemporary icons, expression has always evolved; yet, its purpose remains connection.

Every design translates that visual language into textured, dynamic patterns that feel intentional and rooted in human experience, bringing movement and identity to the floor and balancing visual interest with the thoughtfulness to create environments that support a shared experience.

Here, choose from four expressive styles available in ethos® carpet tile and Flex-Aire™ cushion carpet—all available in nine intriguing colorways.

Browse even more styles in the Transcribe LVT collection—every option engineered for durability, comfort, and well-being ... and designed to unleash your power of expression.

ON COVER:
Hieroglyph G0110 Imaginative 60308, **Dialect G0108** Imaginative 60308
18" x 36" vertical ashlar installation

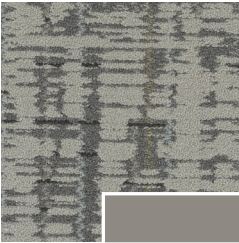

Hieroglyph G0110 Spontaneous 60304, **Unsaid G0111** Spontaneous 60304 | 18" x 36" vertical ashlar installation
Typeform PCTF Decoded 12388 | 18" x 18" vertical ashlar installation

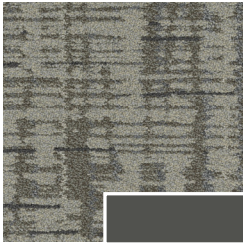

Pulse Code G0109

9 colors | 24" x 24", 18" x 36"

A rhythmic, irregular linework echoes a visual beat that translates raw information into texture, bringing expressive flexibility, energy, and narrative to any space.

Hieroglyph G0110

9 colors | 24" x 24", 18" x 36"

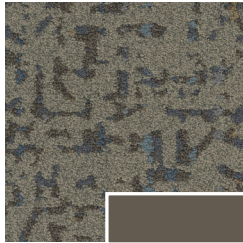

Hieroglyph layers scattered, symbolic marks into a textured field that captures expression as interpretation, translating gestures and fragments into a surface that feels both ancient and contemporary.

Every step matters™

Tarkett's holistic approach to sustainability is woven into the fabric of how we do business and sits at the heart of our day-to-day decision making.

For decades, we've been scrutinizing every detail of our business for its impact on resources like soil, water, and air—because when you're trailblazing a more sustainable future, **every step matters.**

These three values help us stay the course when it comes to sustainability.

Transparency you can trust

We subject our products to relentless scientific scrutiny and third-party testing, then provide customers with radical transparency about our materials, operations, and corporate business practices.

Circular economy

We're committed to creating a circular economy where nothing goes to waste by designing products with their end of life in mind. This means always interrogating the health, safety, environmental, and social impacts of our materials.

Healthy impacts

We've made material choices across our entire portfolio that support better indoor air quality and better outcomes for every living thing. Responsible flooring design not only improves aesthetics; it directly impacts the health of the people who occupy interior spaces.

The **proof** is in the numbers.

Holistic approach

Certifications you can trust

Transparency you can trust

Setting the standard

Global excellence

94%

of our raw materials are third-party assessed for their impact on human and environmental health based on Cradle to Cradle criteria.

2011

started working with EPEA to integrate Cradle to Cradle principles into every facet of our business

100ppm

raw materials content revealed down to 100 parts per million

When most manufacturers reveal raw materials content down to just 1,000 ppm, there's simply no contest.

99%

of flooring solutions have low VOC emission levels—10x lower than the most stringent world standards.

2010

first flooring manufacturer to join the UN Global Compact

69%

of raw materials are abundant, rapidly renewable, or recycled.

2013

first commercial flooring Certified **Asthma & Allergy Friendly**®

100%

ortho-phthalate-free vinyl production; first company to eliminate ortho-phthalates from all products

2016

Began reporting to the Carbon Disclosure Project (CDP). In 2025, Tarkett scored A, the CDP management level.

13

zero-waste-to-landfill manufacturing plants

2022

Powerbond® RS is the first soft surface product in the industry to be Certified **Asthma & Allergy Friendly**®.

2.1 million lb.

of flooring recycled in 2024 in North America

2020

first assessment by EcoVadis. In 2025, Tarkett's score of 86/100 earned us a Platinum medal and placed us in the top 1% of rated companies.

2023

Climate target approved by SBTi (Science Based Targets initiative). Targeting 30% GHG emissions reduction and increase of 30% recycled content across all products by 2030.

At Tarkett, social and environmental responsibility aren't add-ons. They're woven, stamped, and sealed into everything we do. **But more importantly, we don't just say this, we prove it.**

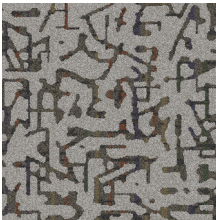

Tailored by Tarkett™

To help you explore and specify flooring that create profoundly unique spaces, Tarkett offers sophisticated design tools and services that make it easier than ever to find inspiration, research product ideas, and try out concepts.

Design tools

The **Tailored by Tarkett Visualizer Suite** is a user-friendly online platform to help you explore layouts and colorways.

- Create project boards to effortlessly save swatches, collect room scenes, upload photos, and keep all your visuals organized in one convenient place.
- Use our **Carpet Running Line Studio** to explore colorways in a variety of commercial environments;
- Personalize your palette with our online **Carpet Recoloring Studio**, which includes exclusively online style offerings;
- Complete your ideas with our **Wall Base Studio**, which enables you to preview an unlimited selection of high-definition digitally printed wall finishing borders.

Of course, your ideas aren't limited to just one type of flooring. That's why—in addition to our carpet and wall base visualizers—our online tools also include visualizers for luxury vinyl tile, non-PVC plank and tile, and rubber tile.

Design services

We also offer a suite of end-to-end design services to help you solve your biggest flooring challenges and deliver personalized solutions. You can even co-create with one of our expert designers to help you fulfill your vision.

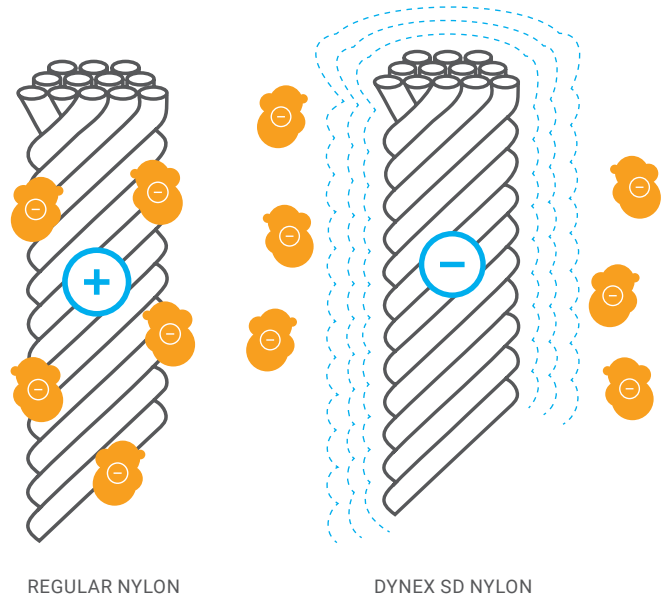

- With our **Designer on Demand** service, simply submit your project online and we'll create beautiful renderings you can proudly share with your clients.
- Our **Imaginations® Personalized Floor Design** program can help you implement more intricate and detailed designs—such as logos and messaging—adding shape, color, and texture into your floor design with tailored cutting and fabrication

Dynex SD® with Eco-Ensure™

Dynex SD is a premium cationic nylon, meaning it's negatively charged to provide permanent resistance against most staining agents. For even greater protection, Dynex SD is treated with Eco-Ensure, a chemistry with a C2C Certified Material Health Certificate™ at the Gold level that resists soiling from oils and organic materials.

This fluorine-free soil protection technology lowers the cost of maintenance and creates healthier spaces by promoting better indoor air quality with low-VOC emissions. The fiber within the product has been optimized to produce maximized appearance retention, cleanability, and coverage.

Our technologies

ethos carpet tile with Omnicoat Technology

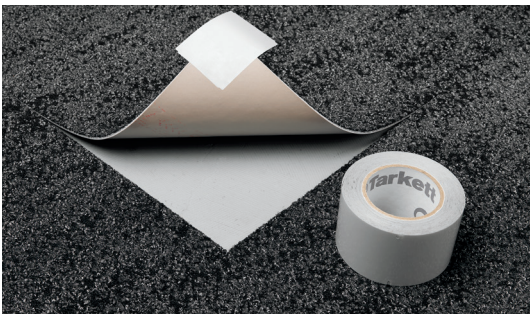

Our ethos carpet tiles start with better materials that allow for a better end-of-life. This non-PVC backing is made with post-consumer recycled PVB from car windshields and safety glass and is part of our ReStart take-back and recycling program. Combined with our Omnicoat Technology, ethos carpet tile also works on any adverse flooring substrate**. While the Cradle to Cradle principles guide all our material choices, ethos carpet tile is Cradle to Cradle Certified Bronze.

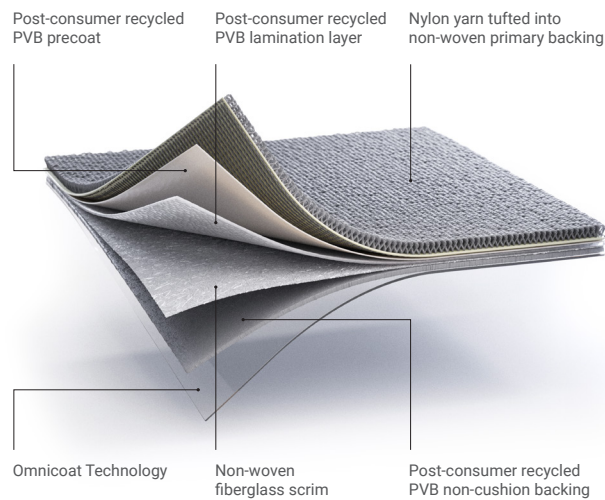

TarkettTAPE®

TarkettTAPE creates a floating installation system for carpet tile. This system installs directly over a variety of adverse concrete conditions, such as green concrete, surface-curing additives, and chemically abated concrete.

TarkettTAPE is not for use with 9" x 36" planks.

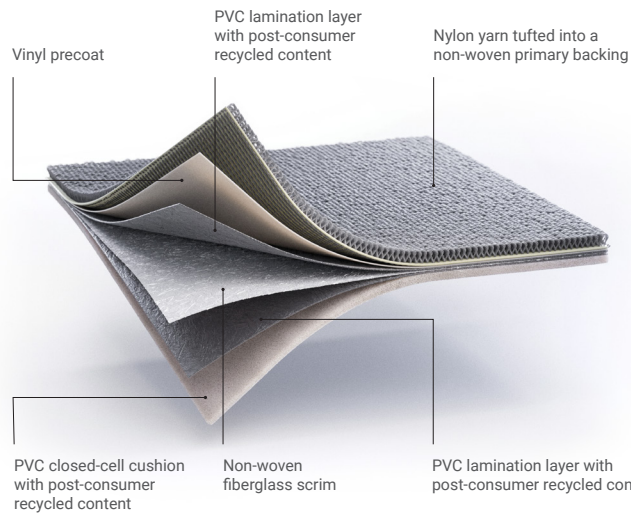

Our backings

ethos® carpet tile with Omnicoat Technology®

Made with up to 78% recycled content, ethos carpet tile is a sustainable solution for high-traffic spaces where ease of installation and healthy materials are a must. It is non-PVC, Cradle to Cradle Certified® Bronze v 4.0; and the backing can truly contribute to the circular economy by being fully recycled back into itself through Tarkett’s ReStart® take-back and recycling program. For preparation ease, its Omnicoat Technology® barrier prevents moisture, pH, or previous adhesives from affecting the floor installation—even over challenging substrates.

Flex-Aire™ cushion carpet tile

Flex-Aire carpet tile is a standout option for spaces that demand a durable flooring solution that delivers superior underfoot comfort. Ideal for open office spaces or interior spaces where people stand or walk for long periods, Flex-Aire is a durable flooring solution where occupant well-being and seamless design transitions are paramount. Its construction also helps ensure that liquids and soil stay at the surface, providing easier cleaning and reduced maintenance costs.

Construction options

	Backing systems	Lifetime limited warranty	Rollability	Installation
CARPET TILE	ethos® carpet tile with Omnicoat Technology®	●	Excellent	TarkettTAPE Direct glue
	Flex-Aire™ cushion carpet tile	●	Good	TarkettTAPE Peel and stick Direct glue

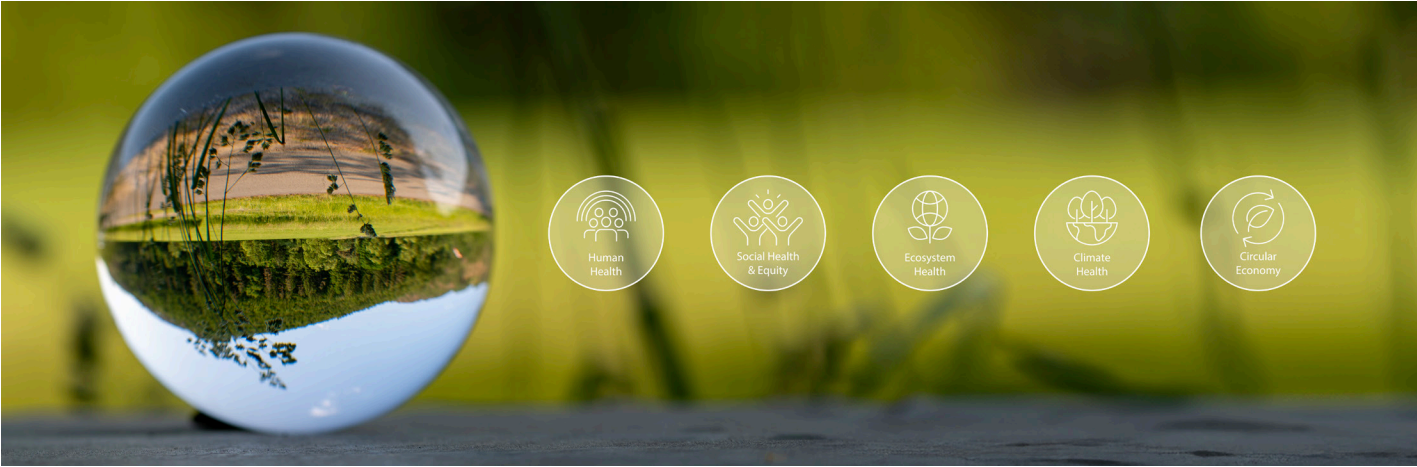

Rollability is the ability to move (or roll) pieces of furniture such as chairs or beds on flooring.

Product	Recycled content		NSF 140 SCS Rating	Cradle to Cradle Certified® v4.0	Declare Red List Free	Green Label Plus Certified
	Overall	Post-consumer				
ethos carpet tile	57–78%	30–43%	Gold	Bronze	●	GLP8320
Flex-Aire cushion carpet tile	27–45%	22–34%	Gold			GLP6558

Adhesives

A brief comparison of adhesive products recommended for use with different Tarkett backing systems, in multiple installation scenarios
